DETAILED ACTION

Election/Restrictions

1. The inventions are distinct from each other because:

Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claim 1-7, drawn to a method of preventing repudiation of digitally-signed electronic documents, classified in class 713, subclass 178.

II. Claim 8-16, drawn to a method of securely delivering an electronic document, classified in class 380, subclass 278.

2. Inventions stated in Groups I-II are related as subcombinations disclosed as usable together in a single combination. The subcombination are distinct from each other if they are shown to be separately usable. In the instant case, invention relating to each of the methods for providing an authorization response message where each of the subcombinations can be used for each other without loss of utility. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

5. Because these inventions are distinct for the reasons given above and the search required for Groups I is not required for Groups II, restriction for examination purposes as indicated is proper.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed(37 CFR 1.143).

7. A telephone call was made to Agent Mr. Elias C. Behrakis on 2/25/05 to request an oral election to the above restriction requirement, but did not result in an election being made.

8. Applicant is reminded that upon cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
